

Junior Program Schedule for August 10-14, 2020

Participation this week will be restricted to campers who are 9 or older, as was the case last week. We continue to reserve the right to disallow participation on any future trips for campers whose behavior suggests that they will not be able to properly follow public health guidelines—please make clear to your children before the hike how important good behavior and effective social distancing is on the trail. Please note that for this week our trips will be limited to seven campers.

To sign up for trips for this week, please fill out [this form](#) before 12 pm (noon) on Friday, August 7. Please fill out one form per participant (that is, if you have two children, please fill out separate forms). We will conduct a lottery to determine who is on the trip and who is on the waitlist, and let you know of your status on the trip before 8 pm on Saturday, August 1. If you have not registered before noon on Friday or wish to cancel from a trip, you may still call ATIS from 9-10 am or 4-5 pm on our Zoom meeting room, using [this link](#); you may also call this link with any other questions. (You can also dial in to the Zoom meeting room by dialing [346 248 7799](#) and then entering the meeting room code (518 576 9157) when prompted, followed by the # key.)

Please try to call during these hours; if you must cancel from a trip or would like to sign up for a trip and cannot do so during our regular office hours, please send an email to signups2020@atistrail.org. We will confirm your place on that trip with an email response.

Along with your trip signups, please be sure to fill out a health form and a Covid-19 screening form. We will not accept registration for trips without these forms.

Driving directions are included in the calendar below. See also [this link](#) for a Google Map containing the locations of all trailheads, or [this link](#) for an alternative set of driving directions.

Please arrive at the parking area at the specified time for both drop-off and pick-up from your trip. Please also be sure to effectively screen your child for Covid-19 symptoms each morning before driving to the trailhead, including taking their temperature.
